## CAREER SUMMARY

I am Front End Developer with experience in developing various web projects. With a proven track record in previous internship at Habitz.id. I aspire to contribute my skills to innovative projects that push the boundaries of web development. My goal is to continue expanding my expertise in frontend technologies and collaborate with dynamic teams to deliver technology solutions that useful for people.

---

## EXPERIENCE

### Frontend Developer Intern – PT Aksamedia Mulia Digital

February 2024 - July 2024

- Successfully developed a Daily Attendance system at PT. Aksamedia Mulia Digital, focusing on the frontend using React.js.
  - Creating a user-friendly interface for recording attendance, generating daily reports, and managing project data.
  - Helped improve the company's efficiency in tracking intern activities.

### Frontend Developer Intern – PT Komuri Indonesia Geekgarden

March 2024 - June 2024

- Successfully developed version 1 of the [Join Geek](#) website and released it right on schedule. During my internship, I used Nuxt 3 technology and focused on :
  - developing Google SSO authentication features
  - creating an admin page to manage job applicant data, apply status, and existing job listings.
  - improving the appearance of the landing page
  - tracking users using google analytics
  - fixing bugs and errors.
- Establish good communication with the QA / Tester team, Backend Developer, and Project Manager so that the project process ran smoothly.

### Web Developer Intern – Habitz.id

August 2023 - December 2023

- Responsible for the development of the admin website, from build database architecture to implementation in a responsive UI.
- Acquired hands-on experience in data management and integration.

## Laboratory Teaching Assistant – Universitas Muhammadiyah Surakarta September 2023 – January 2024

- Conducted instructional sessions, assist lecturers teaching students the fundamentals of operating systems.
- Facilitated practical lab sessions, providing hands-on experience to reinforce theoretical knowledge.

## Head of Web Development team - Fosti UMS August 2023 – December 2023

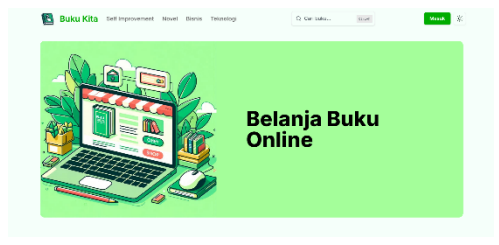

- Improved team collaboration and communication, resulting in a more efficient development process.
- At this time we succeeded in developing 3 websites :  
[fostifest.fostiiums.org](http://fostifest.fostiiums.org), [kayon.fostiiums.org](http://kayon.fostiiums.org), [fostiiums.org](http://fostiiums.org)
